Dr. Divakaran T. Govindan,
Consultant Obstetrician and Gynaecologist, KPJ ISH.

Dear Colleagues and friends, welcome to the 2015 Animal Workshop and 3D Laparoscopic workshop at KPJ Ipoh Specialist Hospital. This is the third year this is organized, following last year's APAGE 2014 joint Laparoscopic workshop which was highly successful with participants from 5 countries.

This year, the emphasis is more on basic skills of suturing and use of energy. Hopefully, the animal workshop will serve this purpose. Enjoy yourself. Thanks.

James Kondrup, M.D.
Physician at Broome OB/GYN.

- Established the Minimally Invasive Surgical program and da Vinci Robotics program at Lourdes Hospital
- International speaker for Ethicon Endo-Surgery on the topic of Minimally Invasive Hysterectomy and Laparoscopic Surgery
- International speaker and preceptor for Gynecologic Minimally Invasive Surgery including on-site training at the Lourdes Center
- Helped to design the new Morristown Medical Center
- Developed GYN training program in Minimally Invasive Gynecology
- Developed and taught laparoscopic and robotic surgery courses for surgeons, Medical Students
