Organized by:
Department of Obstetrics & Gynaecology
University Malaya Medical Center

Endorsed by:
Obstetrical & Gynaecological Society of Malaysia
Asia Pacific Council on Contraception
University Malaya Medical Centre
University of Malaya
IT GIVES ME GREAT PLEASURE to welcome delegates and colleagues to the Women’s Reproductive Health Conference 2013 organized by the department of Obstetrics and Gynaecology, University Malaya Medical Centre. The scientific program has been designed to include a wide range of topics including contraception, sexuality, sexually transmitted diseases and obesity. I hope the various topics that has been included in this conference and with the experienced speakers, will be informative and able to stimulate interactive sessions. I would like to thank all the speakers who has found time in their busy schedule to come and share their knowledge and expertise with us. I would like to thank all delegates for making time to come to this conference and I would also like to thank all sponsors who have contributed to the success of this conference. My heartfelt thanks also to my committee for their hard work and dedication. Finally, I trust you will enjoy the conference and please find time to make new friends and visit the sights and sound of Kuala Lumpur. Have a good meeting.

Jamiyah
Organising Chairman
Assalamualaikum and greetings to all.

On behalf of the Department of Obstetrics and Gynaecology, University of Malaya, it is my pleasure to welcome and wish all of you an enjoyable time ahead during this Women’s Reproductive Health Conference 2013. I especially would like to thank all the international and local speakers for taking their time off from your busy schedule to join us and share your expertise.

The theme of the conference and the topics of the lectures have been carefully selected to remind ourselves on our commitment towards achieving the goals of MDG 5, of which Malaysia is one of the signatory. Women in some countries are deprived of good medical health but fortunately, this is not a big issue in Malaysia. Nevertheless, more could have been offered if we are going to be successful in achieving the targets by 2015. The use of condom should be encouraged to minimize sexually transmitted diseases and together with other contraceptive methods, can prevent unplanned pregnancy and unnecessary maternal morbidity and mortality. Oral contraception is one that has been in the market for many years but its usage is still not to our expectation. Therefore, I sincerely hope that with attending this conference, it will remind us, the health providers on its’ importance and I hope it will stimulate open discussion especially in the contentious issues.

Lastly, I would like to congratulate Professor Jamiyah Hassan and her team for their dedication and hard work in making this conference a reality. Thank you.

Associate Professor Dr Noor Azmi
Teaching Faculty
