19th September 2015

Brought to you by

DEPARTMENT OF OBSTETRIC &
GYNAECOLOGY
Sarawak General Hospital, Kuching, Sarawak

UROGYNAECOLOGY

Urogynecology is a fairly new subspecialty and a fast-growing one, with increasing rates of pelvic floor disorders fuelling a high demand for its services. Women affected by pelvic floor disorders such as stress urinary incontinence and pelvic organ prolapse are often referred to these specialists, as are women who are in need of specialised care for complications stemming from vaginal mesh procedures.

TAILORED TO YOUR NEEDS
