INTRODUCTION

Dear participants,

It is with great pleasure to invite you to our Laparoscopic workshop. As we move forward, we find that the surgeries become more define and specific. With this in mind, we are introducing the "Masterclass in Laparoscopic Surgery" which involves a series of laparoscopic surgeries/workshops conducted over a period of time covering all aspects of gynae laparoscopic surgeries. To kick start this series, we are concentrating on surgeries involving the adnexa.

We will be showcasing a variety of ovarian and tubal conditions that can be treated laparoscopically with short lectures interspersed between the surgeries which will be beneficial to the participants. There will also be screening of short video clips with helpful tips and tricks from our expert surgeons.

At the end of the day, we hope that you have benefited from this workshop and acquire some skills and knowledge. Therefore, we hope to see you all in HSAH, Sungai Petani.

Who should attend?

Obstetrics and Gynaecology Consultants and Specialists

Trainees in Obstetrics and Gynaecology

Medical officers in Obstetrics and Gynaecology
