Limited to 30 participants

# Mastering Obstetrics and Gynaecology in a weekend as an Undergraduate

By  
Professor Kulenthran Arumugam

Date:  
Saturday 3<sup>rd</sup> and  
Sunday 4<sup>th</sup> February 2018

Venue:  
Armada Hotel, Petaling Jaya

# Programme

## Course Structure

The intensive course is designed to prepare the student who is soon going to sit for the Finals of his MBBS programme. It is a revision course and the candidates are expected to have completed his or her posting in Obstetrics and Gynaecology. Given the short time available, the whole syllabus cannot be covered. However, the topics have been carefully chosen in order to cover the areas that are important for the Examination. Each topic will start with a small lecture-come-tutorial that will cover the "must-know" knowledge that is required of a final year student. This will be followed by a spot test on the topics covered. In addition, sessions on how to deal with the long case in Obstetrics and in Gynaecology and an OSCE exam will be covered. The course will end with a mock Theory Exam both for Obstetrics and Gynaecology.

Please make the best of the Course and I wish you the best in your Examination.

### Professor Kulenthran Arumugam

MBBS (Spore), MRCOG, MD, PhD

### About the Moderator

Professor Kulenthran Arumugam comes with a wealth of experience in teaching Obstetrics and Gynaecology both within University Malaya and outside. He has also been an Examiner in Obstetrics and Gynaecology for the Final MBBS for a number of Universities in the country and is well versed with the scope of the subject and the standards expected of the student in order to pass the Exams. He has written two books on the subject for the undergraduates and they have been well received. He is a gifted teacher and has the ability to make a most complicated subject so simple that even a weak student will be able to understand its essence.

#### DAY 1

Saturday, 3<sup>rd</sup> February 2018
