1500-1530	LIVE DEMO
1530-1600	TEA & CLOSING

*This renowned course was the brainchild of Dr Japaraj Robert Peter who initiated this in 2003 and ran it successfully for 14 consecutive years; training almost four thousand doctors in Malaysia. This has now been aptly renamed the Japaraj Advanced O&G Ultrasound Course in his memory and the organizing team have strongly held on to his principles, preserving his distinctive teaching style and ensured that his legacy and passion to teach continues to enrich all those involved in the art of ultrasound in Obstetrics & Gynaecology. We are privileged to be joined by Dr Glenn Gardener, who is a Consultant in Maternal Fetal Medicine from Australia, with special interest in fetal therapy. This is an interactive course encompassing lectures, videos, live-demos, and OSCE sessions strictly adhering to "Japarajism" and we hope to share part of his extensive illustrations in fetal medicine which he has safely archived. Hope to see you in Ipoh as an enriching course awaits you.*

**LIMITED TO 300 PARTICIPANTS ONLY.  
WALK IN REGISTRATION IS NOT RECOMMENDED.**
