OCTOBER 24, 2020, SATURDAY

OPHTHALMOLOGY

SCAN ME FOR RSVP

<https://rb.gy/r4qslk>

Opening remarks:
Prof. Dr. Rosmawati Mohamed
Master of Academy of
Medicine Malaysia

Welcome note:
Dr. Varun Sethi
Vice President of
DKSH Healthcare Malaysia

Speaker: Associate Prof. Amir Samsudin *Consultant Ophthalmologist, PPUM*

Associate Prof. Dr. Amir Samsudin underwent his undergraduate medical training at the University of St Andrews and the University of Manchester in the UK. He returned to Malaysia to continue his ophthalmology specialist training at the UMMC followed by 3 years of research towards his PhD in Glaucoma under the supervision of Professor Sir Peng Tee Khaw at the Institute of Ophthalmology, University College London, UK.

Time: 1400 - 1500

FIXED DOSE COMBINATIONS, OR SEPARATE BOTTLES FOR GLAUCOMA?

Glaucoma is the leading cause of irreversible blindness. Find out interesting case studies from a glaucoma specialist on how fixed-dose combination therapy are more beneficial for glaucoma patients to control their IOP levels. Join us to find out more.

Speaker: Dr. Liau Chun Hong *Consultant Anaesthesiologist, Private hospital*

Dr. Liau Chun Hong graduated from University of Malaya with Bachelor of Medicine in 1995. He started his practice as a specialist in 2002 in his alma mater. Dr. Liau had several clinical trials. One of it was published in British Journal of Anaesthesia.

Time: 1510 - 1610

MANAGEMENT OF PONV : RESCUE OR PROPHYLAXIS?

Nausea and vomiting frequently complicate recovery from anaesthesia. The term postoperative nausea and vomiting (PONV) is typically used to describe nausea and/or vomiting in the post-anaesthesia care unit (PACU) or in the immediate 24 postoperative hours. Patients often rate PONV as worse than postoperative pain. It may limit a patient's ability or desire to eat and drink. Uncontrolled, it can significantly threaten the success of their therapy and even reduce quality of life. Eye surgery is one of the risk factor associated with PONV. From an anaesthesiologist point of view, how do we manage PONV- pre-operation or post-operation? Join us to find out more.

Speaker: Dr. Ainur Rahman *Consultant Ophthalmologist and Corneal Surgeon, Private hospital*

Dr. Ainur underwent his undergraduate medical training at the University of Malaya. After that, he continued with his fellowship (Cornea, Anterior Segment) with Singapore National Eye Center. At the same time, he has completed his clinical research fellowship (Epidemiology) with Singapore Eye Research Institute (SERI), Singapore National Eye Centre.

Time: 1620 - 1720

RED EYES & PINK EYES - TREATING IT RIGHT

Red or Pink Eyes are also known as allergic conjunctivitis and it is one of the most common conditions to ophthalmology patients. These conditions are burdensome to patients as it is disturbing their daily activities. What are the available options to treat this red eye conditions and how effective these treatments are? Let's find out more during this lecture sharing session. Join us to find out more.

HAEMATOLOGY

SCAN ME FOR RSVP

<https://rb.gy/r4qslk>

Opening remarks:
Prof. Dr. Rosmawati Mohamed
Master of Academy of
Medicine Malaysia

Welcome note:
Dr. Varun Sethi
Vice President of
DKSH Healthcare Malaysia

Speaker: Dato' Dr. Chang Kian Meng

Senior Consultant Haematologist & Transplant Physician, Private Hospital

Dato' Dr. Chang Kian Meng is currently the Consultant Haematologist and Transplant Physician at Sunway Medical Centre. He was previously National Head of Haematology Service in MOH and Head of Department of Haematology in Hospital Ampang.

Time: 1500 - 1600

DIALOGUE SESSION: FUTURE AND CURRENT CHALLENGES ON STEM CELL MOBILISATION

Collection of a sufficient number of hematopoietic stem cells for restoring the bone marrow function is very important. However, classical Peripheral Blood Stem Cell (PBSC) mobilization methods often fail to collect sufficient number of PBSCs in 5-40% of patients. What are the current issues in PBSC mobilization including the definition of mobilization failure and suggest the future perspectives of PBSC mobilization? Join us to find out more.

For registration please scan the QR code for respective section that you would like to attend. Should you have further inquiries, please email to hasmarina.hussin@dksh.com or whatsapp to 010-4309420. Kindly RSVP by October 20, 2020 or contact our local DKSH representative.

OBSTETRIC & GYNAECOLOGY

SCAN ME FOR RSVP

<https://rb.gy/r4qslk>

Opening remarks:
Prof. Dr. Rosmawati Mohamed
Master of Academy of
Medicine Malaysia

Welcome note:
Dr. Varun Sethi
Vice President of
DKSH Healthcare Malaysia

Speaker: Dr. John Teo Beng Ho *Consultant Obstetric & Gynaecologist, Private Hospital*

Dr. John Teo is a Private Obstetrician and Gynaecologist. He graduated from University of Sydney in 1992 and Obtained his Membership from the Royal College of Obstetrician and Gynaecologist, United Kingdom in 1998. He is both the Coordinator and Lead Contributor to the Obstetrical and Gynaecological Society of Malaysia's Basic Contraceptive Course and the Editor and Lead Contributor to the Long Acting Reversible Contraceptive Guidelines for Malaysia.

Time: 1400 - 1500

CONTRACEPTION : HAVE YOU MADE THE RIGHT CHOICE?

There are many choices of contraceptive pills in the market, modern oral contraceptive pills contain less oestrogen, newer progestins and require shorter hormone-free intervals, which have further increased their safety and provided additional benefits without the compromising efficacy. But how do you choose the right one for your patient based on their needs and condition? Join us to find out more.

Speaker: Prof. Dr. Jamiyah Hassan *Visiting Consultant Obstetric & Gynaecologist, UiTM Sg.Buloh*

Professor Dr. Jamiyah earned her medical degree from University of Malaya and subsequently specialised in the field of Obstetrics & Gynaecology. She received Petronas Scholarship award to pursue the subspecialty training in fetal-maternal medicine in Queen Charlotte's Hospital London in 1994-1997. Her primary area of expertise is fetal-maternal health with special interest in women's health namely in contraception, menopause and vaccination. She has served as Deputy Director (Professional) of University of Malaya Medical Centre (UMMC) from 2006 - 2009.

Time: 1510 - 1610

REDEFINING THE TREATMENT OF VAGINAL INFECTIONS : IT TAKES 2 TO TANGO

Vaginal discharge is very common among women, when should we initiate treatment and how can we ensure that recurrence will not occur after the 1st treatment? Does restoration of vaginal microbiome play a role in preventing re-infection? Join us to find out more.

Speaker: Associate Prof. Dr. Sofia Binti Sulaiman *OBGYN*

Professor Sofia did her undergraduate in Royal College of Surgeons Ireland in 1994 and obtained her Masters in Obstetrics & Gynaecology from UM in 2001. Professor Sofia is now Senior Consultant Obstetrics & Gynaecology, Department of Obstetrics & Gynaecology, Faculty of Medicine in University Malaya. Her area of expertise include first trimester scanning and Feto-Maternal medicine. Her research interest include Miscarriages, Teenage pregnancy, Anaemia in pregnancy, Sexually transmitted disease, Foetal anomalies and termination of pregnancy and Female infertility.

Time: 1620 - 1720

MANAGEMENT OF MISCARRIAGES : MEDICALLY OR SURGICALLY

Being diagnosed with miscarriage may not be the happiest moment of a much-wanted pregnancy to a woman. Even when the diagnosis was made in the first trimester. Dealing with the management of this situation involved a lot of counselling regarding what to do with the miscarriage. Options for conservative or medical termination or surgical evacuation need to be discussed involving success rate and also safety. Join us to find out more.

For registration please scan the QR code for respective section that you would like to attend.
Should you have further inquiries, please email to hasmarina.hussin@dksh.com or whatapps to 010-4309420.
Kindly RSVP by October 20, 2020 or contact our local DKSH representative.

PAEDIATRIC & RESPIRATORY

SCAN ME FOR RSVP

<https://rb.gy/r4qslk>

Opening remarks:
Prof. Dr. Rosmawati Mohamed
Master of Academy of
Medicine Malaysia

Welcome note:
Dr. Varun Sethi
Vice President of
DKSH Healthcare Malaysia

Speaker: Dr. Chin Wai Seong *Consultant Paediatrician, Private Practice*

Dr. Chin graduated from the National University of Malaysia with Honours Degree in 1996. His passion in childcare had driven him to further pursue in paediatrics. He passed his royal college examination in paediatrics in 2000 and was elected as a member in 2001. He then became a member of royal college of child health and paediatrics, UK in 2006.

Time: 1400 - 1500

FLU OR BEING FOOLED?

A newborn with flu may have cold symptoms, but these are often alongside with other signs. The baby may become irritable/cranky as they are unable to express their discomfort. How to unravel with the FLU in an infant which can mimic other respiratory problems to optimize the treatment outcome? Join us to find out more.

Speaker: Dr. Irifan Ali Bin Hyder Ali *Consultant Chest Physician, Hospital Pulau Pinang*

Dr. Irifan Ali Bin Hyder Ali is a General Physician based at Hospital Pulau Pinang in George Town. His area of expertise is in Respiratory Medicine. He is currently the Consultant Chest Physician and Head of Department, Respiratory Department, Hospital Pulau Pinang.

Time: 1510 - 1610

WHEEZE NO MORE, INHALE WITH TRIPLE CHECKPOINT

Correct inhaler use is crucial for the effectiveness of therapy. The type of device and mastery of it is important for improving adherence, clinical outcome, quality of life and use of healthcare resources. How do you ensure your patient inhales the medication using the right method and right dose? Join us to find out more.

ONCOLOGY

SCAN ME FOR RSVP

<https://rb.gy/r4qslk>

Opening remarks:
Prof. Dr. Rosmawati Mohamed
Master of Academy of
Medicine Malaysia

Welcome note:
Dr. Varun Sethi
Vice President of
DKSH Healthcare Malaysia

Speaker: Dr. Matin Mellor *Consultant Clinical Oncologist, Private Hospital*

Dr. Matin Mellor Abdullah is a Consultant in Clinical Oncology and Radiotherapy in the Cancer and Radiosurgery Centre in Subang Jaya Medical Centre (SJMC) in Subang Jaya since the year 2000. Prior to joining SJMC, he had worked in Universiti Malaya Medical Centre, Institut Radiotherapy, Oncology and Nuclear Medicine, Hospital Kuala Lumpur and Queen Elizabeth Hospital Birmingham, England.

Time: 1400 - 1500

ROLE OF MTOR INHIBITOR IN ADVANCED BREAST CANCER PATIENTS

Resistance to endocrine therapy in advanced breast cancer is associated with activation of the mammalian target of rapamycin (mTOR) intracellular signaling pathway. Managing these patients with mTOR inhibitor everolimus added to endocrine therapy has shown improvement in progression free survival. Join us to find out more.

Speaker: Dr. Daniel Wong *Consultant Clinical Oncologist, Private Hospital*

Dr. Daniel Wong Wai Yan graduated from University of Sydney Australia with Bachelor of Medicine & Bachelor of Surgery. Upon completion of his specialist training in United Kingdom in clinical oncology in 2007, he received his fellowship in Radiation Oncology in Royal Prince Alfred Hospital, Sydney and then became a specialist in University Hospital Coventry.

Time: 1510 - 1610

MANAGEMENT OF CIN V WITH 5HT3 RECEPTOR ANTAGONIST: IS LONGER HALF-LIFE BETTER?

Nausea and vomiting are common in cancer patients. Whether these symptoms present together or independently of each other, both can result in serious metabolic disturbances, internal injury, malnutrition, and poor quality of life. They can result in patient's withdrawal from potentially beneficial chemotherapy, and that chemotherapy-induced nausea vomiting may not manifest until the prophylactic medications have worn off. Anti-emetic management with 5HT3 receptor antagonist is a commonly used anti-emetic agent, is longer half-life more beneficial to patients? Join us to find out more.

PROGRAM AT A GLANCE

OCTOBER 24, 2020, SATURDAY

OPHTHALMOLOGY

FIXED DOSE COMBINATIONS, OR SEPARATE BOTTLES FOR GLAUCOMA?
1400 - 1500

Speaker: Associate Prof. Amir Samsudin
Consultant Ophthalmologist,
PPUM

Moderator: Dr. Chua Kai Yin
DKSH Medical Affairs

MANAGEMENT OF PONV : RESCUE OR PROPHYLAXIS?
1510 - 1610

Speaker: Dr. Liau Chun Hong
Consultant Anesthesiologist,
Private hospital

Moderator: Dr. Chua Kai Yin
DKSH Medical Affairs

RED EYES & PINK EYES - TREATING IT RIGHT
1620 - 1720

Speaker: Dr. Ainur Rahman
Consultant Ophthalmologist
and Corneal Surgeon
Private hospital

Moderator: Dr. Chua Kai Yin
DKSH Medical Affairs

HAEMATOLOGY

DIALOGUE SESSION: FUTURE AND CURRENT CHALLENGES ON STEM CELL MOBILISATION
1500 - 1600

Speaker: Dato' Dr. Chang Kian Meng
Senior Consultant Haematologist
& Transplant physician,
Private Hospital

Moderator: Dr. Ho Kim Wah
Consultant Clinical Haematologist,
Hospital Ampang

OBSTETRIC & GYNAECOLOGY

CONTRACEPTION : HAVE YOU MADE THE RIGHT CHOICE?
1400 - 1500

Speaker: Dr. John Teo Beng Ho
Consultant Obstetric & Gynaecologist,
Private Hospital

Moderator: Dr. Chua Kai Yin
DKSH Medical Affairs

REDEFINING THE TREATMENT OF VAGINAL INFECTIONS : IT TAKES 2 TO TANGO
1510 - 1610

Speaker: Prof. Dr. Jamiyah Hassan
Visiting Consultant Obsteric & Gynaecologist,
UiTM Sg.Buloh

Moderator: Dr. Chua Kai Yin
DKSH Medical Affairs

MANAGEMENT OF MISCARRIAGES : PHARMACOLOGICALLY OR SURGICALLY
1620 - 1720

Speaker: Associate Prof. Dr. Sofiah Binti Sulaiman
OBGYN

Moderator: Dr. Chua Kai Yin
DKSH Medical Affairs

OCTOBER 25, 2020, SUNDAY

PAEDIATRIC & RESPIRATORY

FLU OR BEING FOOLED?
1400 - 1500

Speaker: Dr. Chin Wai Seong
Consultant Paediatrician, Private Practice

Moderator: Dr. Jiun Low
DKSH Medical Affairs

WHEEZE NO MORE, INHALE WITH TRIPLE CHECKPOINT
1510 - 1610

Speaker: Dr. Irfhan Ali Bin Hyder Ali
Consultant Chest Physician,
Hospital Pulau Pinang

Moderator: Dr. Jiun Low
DKSH Medical Affairs

ONCOLOGY

ROLE OF MTOR INHIBITOR IN ADVANCED BREAST CANCER PATIENTS
1400 - 1500

Speaker: Dr. Matin Mellor
Consultant Clinical Oncologist, Private Hospital

Moderator: Dr. Daniel Wong
Consultant Clinical Oncologist,
Private Hospital

MANAGEMENT OF CINV WITH SHT3 RECEPTOR ANTAGONIST: IS LONGER HALF-LIFE BETTER?
1510 - 1610

Speaker: Dr. Daniel Wong
Consultant Clinical Oncologist, Private Hospital

Moderator: Dr. Matin Mellor
Consultant Clinical Oncologist,
Private Hospital
