## From Strategy To Action

# Welcome Note

**DR ROZIAH BT HUSIN**

Dear colleagues

Welcome to the 5th National Maternal Fetal Medicine Conference 2023.

It is with great pleasure that the Maternal Fetal Medicine Unit of Hospital Tengku Ampuan Afzan, Kuantan invites you to actively participate in the 5th National Maternal Fetal Medicine Conference for 3 days from 27th until 29th January 2023.

The National Maternal Fetal Conference with theme 'From Strategy to Action' has been our signature event every 2-years since 2015. It has been the premier platform in not only on discussion and update with regards to common maternal and fetal conditions but also in building the networking opportunities with other specialties.

While the disease is best managed by the expert of the area, Maternal Fetal Medicine jointly care on how physiological changes in pregnancy add value into patient's wellbeing and growth of the little one. We are here to share on the care of patients from pre-conception and throughout their pregnancy.

The organizing committee has prepared an impactful program that list expert speakers, up to date topics and interactive sessions. With more than 23 topics to be shared over the three days symposium, maternal and fetal conditions issues will be our focus with the aim to further understand, diagnostics, intervention, and management until post-partum.

Together we care, from strategy to action!

*Maternal Fetal Medicine Conference 2023*

# Welcome Note

**DR NORHASLIZA BT AHMAD FAUZI**

Dear All

On behalf of the organising committee, I welcome all participants and delegates to this event of 5th National Maternal Fetal Conference by Maternal Fetal Medicine Unit, Hospital Tengku Ampuan Afzan, Kuantan. This conference focus on care for pregnant mothers with complex medical disorders and growing fetuses best possible based on recent evidence, multidisciplinary team expert opinion and experiences, for the best outcome of both mother and baby.

This year we will bring you 23 lectures from various experts in their areas with additional some new topics in haematological malignancies, valve replacement in reproductive age and micronutrients supplementation in pregnant women. In addition to lectures, we will have a platform for interesting 4 case-based discussions by the experts and you as a managing team!

As our new focus this year is to emphasize on the importance of pre-pregnancy care counselling in women with medical or surgical disorders, with future aim to reduce the maternal morbidity and mortality which mainly now arising from medical condition. Empowering our health care workers to feel comfortable not only to manage the pregnant women with medical disorders but in addition, able to discuss the impact of pregnancy to their pre-existing conditions.

We're looking forward to an excellent meeting with great experts and sharing updates on managing women with medical or surgical disorders, which will be held in Grand Darul Makmur Hotel, Kuantan, from January 27th to 29th, 2023.

I will see you soon in Grand Darul Makmur, Kuantan!
