In conjunction with
MyWoman International Congress 2023
Co-organised by
Academy of Medicine of Malaysia (AMM),
College of Obstetricians & Gynaecologists, AMM(COGAMM)
&
Malaysian Menopause Society (MMS)

Optimising Women’s Health

7th - 9th July 2023
Royale Chulan Kuala Lumpur
It gives me immense pleasure to invite you to the 56th Malaysia-Singapore Congress of Medicine (MSCM), in conjunction with MyWomen International Congress 2023.

The Organizing and Scientific committees have designed a thought-provoking programme which not only focuses on the state-of-the-art and current aspects to optimize women’s health, but also includes substantial emphasis on a multidisciplinary approach to improve women’s health, which is vital to enhance the quality of life of women.

The topic chosen for the Presidential Round Table, which is one of the highlights of the MSCM, is “Incorporating Simulation in Specialist Training”. Simulation has been shown to be useful in many aspects of specialist training and assessment. With the growing focus on outcome-based medical education, there is an increasing use of simulation-based learning which provides a safe learning environment to acquire both technical and non-technical skills, and allows repeated practice and evaluation until a defined proficiency level is achieved.

Please save the date and we look forward to see you in July 2023.
Welcome to the 56th Malaysia-Singapore Congress of Medicine organised by Academy of Medicine of Malaysia, in conjunction with MyWoman International Congress 2023.

It is with great honor and pride that the Academy of Medicine Malaysia invites you to our congress this year from the 7th to 9th of July 2023 at Royale Chulan Kuala Lumpur.

Following a successful virtual MyOBG conference last year amidst the pandemic, we are looking forward to seeing you in person, to be able to join the discussions, share your narratives, and network with colleagues and friends from around the globe.

The conference this year was made possible by the dedicated organizing committee who generously gave their time, talent and thought to produce an event that I am sure will exceed expectations.

Our chosen theme this year “Optimising Women’s Health”, couldn't have been more apt as we work hand in hand with the Academy of Medicine Singapore, Academy of Medicine Hong Kong, College of Obstetricians and Gynaecologists Malaysia and the Malaysian Menopause Society to bring you the latest from the various subspecialities.

Get ready for an interesting, stimulating, and riveting conference. Know that the aim of this conference is for you to leave energized and equipped with new ideas to optimise the way we treat our women.

See you soon!
Greetings to all healthcare professionals and individuals interested in women’s health!

I would like to invite all of you to the "MyWoman International Congress 2023".

We have a line-up of interesting topics and new developments in obstetrics, gynaecology, menopause and women’s health all together. You can enjoy all the benefits mentioned above for an affordable registration fee, 20 CPD points and the advantage of a meeting at a strategic location. How exciting!

We have a line-up of interesting topics and new developments in obstetrics, gynaecology, menopause and women’s health all together. You can enjoy all the benefits mentioned above for an affordable registration fee, 20 CPD points and the advantage of a meeting at a strategic location. How exciting!

This congress will be a platform for fostering new ideas, partnerships, and collaborations that will drive us together as a fraternity to provide better care for our patients. We have many leading international and local experts who will be sharing their experiences, knowledge, and insights with an aim to improve the health and well-being of women. All these factors make the congress an excellent value for money for those interested in advancing their knowledge and skills in women’s health.

Let’s come together and engage in meaningful discussions, share our knowledge, and experience, and continue to push the boundaries of what is possible in medicine.

I am looking forward to seeing you at the congress.
Organising Committee
