Submission Guidelines

Authors are required to submit an English abstract (text only, no template) of maximum of 300 words, along with author's contact information.

The online submission form is divided into the following sections:

Objective

Concise statement on why the study was conducted.

Method

Location, number and type of human subjects, non-human species or material being studied. Design of the study and type of intervention. Principal assays or test(s) performed and the types of statistical analyses if appropriate.

Results

Main findings and results should be reported. Results should be supported by statistical analysis where appropriate.

Conclusions

Main conclusions of the study and significance of the results. How the results may affect patient management or understanding of the condition.
