TOPICS

Mastering Your Ultrasound Machine

(Don't ask what machine can do for you, ask how you can optimize your machine)

First trimester scan – The basics and the common error
(You don't have to be great to start, but start to be great)

Second trimester scan – The basics and the common error
(Insanity is repeating the same method, expecting a better results)

Gynae Scan

The beginning and the continuity of human race)

Commonly referred case, are they necessary?

(Placenta location, amniotic fluid, twin chorionicity)

FGR vs SGA – When to refer and when to deliver
(Be not afraid of growing slowly, be afraid of standing still)

Detecting fetal anomalies during second trimester scan

(Now everyone can Doppler)

Obstetric Doppler for beginners and primary care
(Nothing cost more than a missed opportunity)
