

# Part 1 MRCOG Examination: ONLINE Course

## Your one-stop guide to passing the Examination

*Are you looking for a Course that navigates the syllabus, make it all so clear and simple and gives you ample practice with SBAs?  
This is the one for you*

The course covers the 14 modules as stipulated in the syllabus. These include Anatomy, Biochemistry, Embryology, Endocrinology, Genetics, Physiology, Biophysics, Pharmacology, Basic immunology, Statistics and Epidemiology, Microbiology, Pathology, Data Interpretation and Clinical management

Each Module is an interactive Lecture (video) that explains the concepts followed by an ample practice of Single Best Answer questions to test your understanding

Course Moderator:  
Professor Kulenthran Arumugam  
FRCOG, MD, PhD  
He has more than 35 years experience in running the Part 1 MRCOG Course and Conducting the MRCOG Examinations

Registration:
