

From Childhood to Golden Years: The Crucial Role of Vaccination in Women's Health

Wednesday, 25 June 2025
1:00 – 2:30 pm

Before prescribing, please refer to the full prescribing information, which is available via scanning this QR code. For any issues accessing the prescribing information via QR code, please contact GSK Malaysia at medinfo.my@gsk.com.

Boostrix Safety Information¹:

Contraindication: Hypersensitivity to the active substances or to any component of the vaccine. The very common adverse reactions for individuals aged 4-9 years are injection site reactions (redness and/or swelling), injection site pain, fatigue, irritability and somnolence.

About The Webinar

This session will focus on maternal immunisation and its impact on women’s and infant health, while also exploring current practices in Malaysia’s National Immunisation Programme.

The panel will discuss why vaccine coverage matters across all age groups, especially among pregnant women, children, and seniors, and the ongoing challenges in vaccine advocacy.

Don’t forget to fill in the post-webinar survey to share your feedback:
