# BASIC TO INTERMEDIATE ULTRASOUND COURSE

22 - 23 August 2025

## ► COURSE OBJECTIVES :

- To understand the principles of basic obstetrics and gynaecology ultrasound scan, including pregnancy dating and fetal growth assessment.
- The sessions will address the theoretical components with live demonstration.
- Practical hands-on sessions will enable participants to acquire the skills on basic gynaecology and first trimester scan. Fetal biometric assessment including liquor volume measurement and placental localisation will also be covered.

## ► WHO SHOULD ATTEND?

Clinicians (obstetricians or general practitioners), sonographers and nurses wishing to undertake training in Obstetrics & Gynaecology ultrasound, or who are already in practice.

# SPEAKER
